Independent Auditors' Report on Review of Interim Consolidated Financial Statements

To the Shareholders of Orascom Construction PLC

Introduction

We have reviewed the accompanying 30 June 2024 interim consolidated financial statements of Orascom Construction PLC ("the Company") and its subsidiaries (collectively referred to as "the Group"), which comprises:

- the consolidated statement of financial position as at 30 June 2024;
- the consolidated statements of profit or loss and other comprehensive income for the three month and six month periods ended 30 June 2024;
- the consolidated statement of changes in equity for the six month period ended 30 June 2024;
- the consolidated statement of cash flows for the six month period ended 30 June 2024; and
- notes to the interim consolidated financial statements.

Management is responsible for the preparation and presentation of these interim consolidated financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2024 interim consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. General

Orascom Construction PLC ('OC PLC') is a Public Company, incorporated with registered number CL1752 in the Dubai International Financial Center (DIFC) with its head office located at Gate Village-Building 1, DIFC, Dubai, UAE. OC PLC is dual listed on the NASDAQ Dubai and the Egyptian Stock Exchange. The interim consolidated financial statements for the six month period ended 30 June 2024 comprise the financial statements of OC PLC, its subsidiaries and joint operations (together referred to as the 'Group') and the Group's interests in associates and joint ventures.

OC PLC was incorporated on 18 January 2015 as Orascom Construction Limited, a company limited by shares and converted to a Public Company under the Law, DIFC Law No. 5 of 2018.

OC PLC is primarily engaged as an international engineering and construction contractor focused on large-scale infrastructure, complex industrial and high-end commercial projects in the United States, Middle East, Africa and Central Asia for public and private clients.

2. Basis of preparation

2.1 General

The interim consolidated financial statements for the six month period ended 30 June 2024 have been prepared in accordance with IAS 34 'Interim Financial Reporting' and do not include all the information and disclosures required in the annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since 1 January 2024.

The interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2023. The accounting principles used are the same as those used in the consolidated financial statements for the year ended 31 December 2023.

These interim consolidated financial statements have been prepared on the historical cost basis, except when otherwise indicated.

The financial year of OC PLC commences on 1 January and ends on 31 December.

These interim consolidated financial statements are presented in US dollars ('USD'), which is OC PLC's presentation currency. All values are rounded to the nearest million (in millions of USD), except when stated otherwise.

These interim consolidated financial statements have been authorised for issue by the Company's Board of Directors on 27 August 2024.

3. New accounting standards and policies

The accounting policies applied in these interim consolidated financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2023.

4. Critical accounting judgements, estimates and assumptions

There were no significant changes in critical accounting judgements, estimates and assumptions compared to the consolidated financial statements for the year ended 31 December 2023.

5. Financial risk and capital management

Overview

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

These risks arise from exposures that occur in the normal course of business and are managed on a consolidated company basis. This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Risk management framework

Senior management has an overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by the Internal Audit Department. The Internal Audit Department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

5.1 Exposure to credit risk

The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures. The carrying amount of financial assets represents the maximum credit exposure. With respect to transactions with financial institutions, the group sets limits to the credit worthiness rating of the counterparty. The maximum credit risk is the carrying amount of financial instruments, for an overview, reference is made to the tables of financial instruments by category.

The major exposure to credit risk at the reporting date was as follows:

$ millions	Note	30 June 2024	31 December 2023
Trade and other receivables (excluding prepayments and supplier and subcontractor advance payments)	(8)	1,018.9	1,040.2
Contract work in progress	(12)	543.3	737.8
Cash and cash equivalents (excluding cash on hand)	(13)	670.7	694.9
Total		2,232.9	2,472.9

The major exposure to credit risk for trade and other receivables by geographic region was as follows:

$ millions	30 June 2024	31 December 2023
Middle East and Africa	533.1	591.9
Asia and Oceania	80.7	84.9
Europe and United States	405.1	363.4
Total	1,018.9	1,040.2

Impairment losses

The following table provides the information above the exposure to credit risk and ECLs for trade receivables as at 31 December 2023:

At 31 December 2023 $ millions	Weighted average loss rate	Gross	Loss allowance
Not due	- %	372.2	-
0 - 30 days	- %	35.2	-
31 - 90 days	- %	48.5	-
More than 90 days	7.4 %	156.5	(11.6)
Total		612.4	(11.6)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The following table provides the information above the exposure to credit risk and ECLs for trade receivables as at 30 June 2024:

At 30 June 2024 $ millions	Weighted average loss rate	Gross	Loss allowance
Not due	-%	392.5	-
0 - 30 days	-%	5.5	-
31 - 90 days	-%	102.4	-
More than 90 days	9.1%	101.3	(9.2)
Total		601.7	(9.2)

5.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. This is also safeguarded by using multiple financial institutions in order the mitigate any concentration of liquidity risk.

The availability of cash is monitored internally at Group level, on an ongoing basis by the corporate treasury department. In addition management prepared at closing date a cash flow projection to assess the ability of the Group to meet its obligations.

The following are the contractual maturities of financial liabilities, including estimated interest payments and exclude the impact of netting arrangements.

At 31 December 2023 $ millions	Note	Carrying amount	Contractual cash flow	6 months or less	6–12 months	1–5 years
Financial liabilities						
Loans and borrowings	(18)	249.8	268.0	130.6	136.7	0.7
Trade and other payables (excluding lease obligation, other tax payable and deferred revenue)	(19)	1,397.4	1,397.4	1,369.5	-	27.9
Lease obligation	(19)	20.7	25.5	3.0	2.4	20.1
Total		1,667.9	1,690.9	1,503.1	139.1	48.7

At 30 June 2024 $ millions	Note	Carrying amount	Contractual cash flow	6 months or less	6–12 months	1–5 years
Financial liabilities						
Loans and borrowings	(18)	238.7	255.5	124.6	130.2	0.7
Trade and other payables (excluding lease obligation, other tax payable and deferred revenue)	(19)	1,101.5	1,101.5	1,075.6	-	25.9
Lease obligation	(19)	20.3	22.8	0.7	5.2	16.9
Total		1,360.5	1,379.8	1,200.9	135.4	43.5

The interest on floating rate loans and borrowings is based on forward interest rates at period-end. This interest rate may change as the market interest rate changes.

5.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Management is mindful of risks and uncertainties that the Company may face. While the Company takes necessary steps to mitigate risks and capitalize on opportunities, the principal uncertainties over the next six months relate to macroeconomic and market conditions, customary project execution, and legal proceedings. The Company remains committed to proactive risk management.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The Group is exposed to foreign currency risk arising in separate ways:

Foreign exchange translation exposure

Due to the Group's international presence, OC PLC's Financial Statements are exposed to foreign exchange fluctuations as these affect the translation of the subsidiaries' assets and liabilities presented in foreign currencies to the US dollar (the Group's presentation currency). The currencies concerned are mainly Egyptian Pound, Algerian Dinar and Euro. Foreign exchange translation exposure is considered a part of doing business on an international level; this risk is not actively managed, nor is it hedged.

Exchange rates used by the Group in the consolidated financial statement are based on the providing exchange rates in the market at the time of transactions.

OC PLC is not exposed to Saudi Riyal, UAE Dirham and Qatar Riyal. These currencies are pegged to the US dollar.

The Group entities predominantly execute their activities in their respective functional currencies. Some Group subsidiaries are, however, exposed to foreign currency risks in connection with the scheduled payments in currencies that are not their functional currencies. In general this relates to foreign currency denominated supplier payables due to project procurement, capital expenditures and receivables. The Group monitors the exposure to foreign currency risk arising from operating activities.

The Group is exposed to foreign exchange transaction exposure to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of Group companies. The functional currencies of Group companies are primarily Euro, US Dollar, Egyptian Pound, Saudi Riyal, Algerian Dinar and UAE Dirham.

The Group uses foreign exchange contracts to manage its foreign exchange transaction exposure. No hedge accounting is applied; therefore all fair value changes are recognised in profit and loss.

The summary of quantitative data about the Group's exposure to foreign exchange transaction exposure provided to management of the Group based on its risk management policy for the main currencies was as follows:

At 31 December 2023 $ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	128.5	(134.2)
Trade and other receivables	14.6	565.6
Trade and other payables	(14.0)	(751.9)

At 30 June 2024 $ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	165.8	(179.4)
Trade and other receivables	23.3	500.7
Trade and other payables	(20.6)	(550.6)

Significant rates

The following significant exchange rates were applied during the six month period ended 30 June 2024:

	Average 2024	Closing 30 June 2024	Opening 1 January 2024
Egyptian Pound	0.0259	0.0208	0.0324
Saudi Riyal	0.2666	0.2666	0.2666
UAE Dirham	0.2723	0.2723	0.2723
Euro	1.0826	1.0713	1.1039

The following tables demonstrate the sensitivity to a reasonably possible change in EUR and EGP exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities, including inter company positions. The Group's exposure to foreign currency changes for all other currencies is not material.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

As of 30 June 2024, if the functional currencies had strengthened/weakened by 10 percent against the Euro and 10 percent against the Egyptian Pound with all other variables held constant, the translation of foreign currency receivables, cash and cash equivalents, payables and loans and borrowings that would have resulted in an increase/decrease of USD 17.0 million of the profit / loss of the six month period ended 30 June 2024 (31 December 2023: USD 15.2 million).

31 December 2023 $ millions	Change in FX rate*	Effect on profit before tax	Effect on equity
EUR - USD	10%	12.9	12.9
EGP - USD	10%	2.3	(32.0)

30 June 2024 $ millions	Change in FX rate*	Effect on profit before tax	Effect on equity
EUR - USD	10%	16.9	16.9
EGP - USD	10%	0.1	(22.9)

* Determined based on the volatility of last year for the respective currencies.

Interest rate risk

The Group's cash flow interest rate risks arise from the exposure to variability in future cash flows of floating rate financial instruments. The Group reviews its exposure in light of global interest rate environment after consulting with a consortium of global banks.

The Group calculates the impact on profit or loss of a defined interest rate shift. The same interest rate shift is used for all currencies. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

As of 30 June 2024, if the interest rate had strengthened/weakened by 10 percent with all other variables held constant, the interest cost that would have resulted in an increase/decrease of USD 3.6 million of the profit of the six month period ended 30 June 2024 (31 December 2023 : USD 5.1 million)

$ millions	Change in interest rate	30 June 2024	31 December 2023
Effect on profit before tax	10% increase	(3.6)	(5.1)
	10% decrease	3.6	5.1

7. Goodwill

$ millions	Goodwill
Cost	27.7
At 1 January 2024	27.7
Movements in the carrying amount:	-
At 30 June 2024	27.7

On 31 July 2012, the Group acquired the Weitz Company LLC, a United States general contractor based in Des Moines, Iowa, resulting in USD 12.4 million of goodwill. The transaction was completed on 12 December 2012. On 2 April 2015, the Group acquired Integrated Facade Solutions (previously known as "Alico") resulting in USD 1.4 million of goodwill. On 2 January 2022, the Group acquired 100% of the total shares "Orascom Trading Company, Orascom Free Zone, National Equipment Company", resulting in USD 13.9 million of goodwill.

Goodwill is tested for impairment in the fourth quarter of the year or earlier if there are significant changes in the indicators of impairment.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

8. Trade and other receivables

$ millions	30 June 2024	31 December 2023
Trade receivables (gross)	601.7	612.4
Allowance for trade receivables	(9.2)	(11.6)
Trade receivables (net)	592.5	600.8
Trade receivables due from related parties (Note 28)	15.5	10.9
Prepayments	13.9	16.0
Other tax receivable	38.7	46.2
Supplier and subcontractor advance payments	252.4	247.0
Retentions	263.6	269.9
Other receivables	108.6	112.4
Total	1,285.2	1,303.2
Non-current	23.6	22.1
Current	1,261.6	1,281.1
Total	**1,285.2**	**1,303.2**

The carrying amount of 'Trade and other receivables' as at 30 June 2024 approximates its fair value.

Prepayments relate for the largest part to the amounts prepaid to sub-contractors, retentions related for the largest part to the amounts withheld by customers resulting from contractual clauses.

The aging of gross trade receivables at the reporting date is as follows:

$ millions	30 June 2024	31 December 2023
Neither past due nor impaired	392.5	372.2
Past due 1 - 30 days	5.5	35.2
Past due 31 - 90 days	102.4	48.5
Past due 91 - 360 days	37.7	83.4
More than 360 days	63.6	73.1
Total	601.7	612.4

Management believes that the unimpaired amounts that are past due by more than 30 days are collectible in full, based on historic payment behavior and extensive analysis of customer credit risk, including underlying customers' credit ratings if they are available.

The movement in the allowance for impairment in respect of trade receivables during the six month period ended 30 June 2024 was as follows:

$ millions	30 June 2024	31 December 2023
At 1 January	(11.6)	(12.3)
Provision formed	(0.3)	(5.0)
Provision no longer required	0.3	2.1
Disposal of subsidiary	-	2.1
Exchange rate differences and other	2.4	1.5
At 30 June / 31 December	(9.2)	(11.6)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

9. Equity accounted investees

The following table shows the movement in the carrying amount of the Group's associates and joint ventures:

$ millions	30 June 2024	31 December 2023
At 1 January	464.7	462.5
Share in results	11.8	20.7
Dividends	(6.8)	(14.8)
Disposal	(1.8)	-
Effect of movement in exchange rates	(17.7)	(3.7)
At 30 June / 31 December	450.2	464.7

The entity disclosed under 'Equity accounted investees' that is significant to the Group is BESIX.

BESIX Group (BESIX)

Established in 1909 in Belgium, BESIX is a global multi-service group offering engineering, procurement and construction (EPC) services. BESIX operates in the construction, real estate and concession sectors in 15 countries focusing on Europe, Africa, the Middle East and Australia. Their core construction competencies include buildings, infrastructure and environmental projects, industrial civil engineering, maritime and port works and real estate development. In addition to EPC services, BESIX is active in real estate development and holds concessions in several Public Private Partnerships (PPP) and design, build, finance, and maintain/operate (DBFM) contracts, through which it develops, operates and maintains projects.

The below table summarizes the financial information of BESIX:

Income	1,783.4	880.3	1,827.5	908.5
Expense	(1,759.3)	(868.5)	(1,809.4)	(898.5)
Net profit for the six month period ended 30 June	24.1	11.8	18.1	10.0

Transaction between Group entities and associates / joint ventures

There are no significant transactions between entities of the group and the associates / joint ventures, except for the investments in and the dividends received from these associates and joint ventures.

10. Income taxes

10.1 Income tax in the statement of profit or loss

The income tax on profit before income tax amounts to USD 29.6 million (30 June 2023 : USD 38.0 million) and can be summarized as follows:

$ millions	the six months ended 30 June 2024	the three months ended 30 June 2024	the six months ended 30 June 2023	the three months ended 30 June 2023
Current tax	(12.4)	(5.1)	(35.9)	(27.3)
Deferred tax	(17.2)	(2.9)	(2.1)	(0.5)
Total income tax in profit or loss	(29.6)	(8.0)	(38.0)	(27.8)

10.2 Reconciliation of effective tax rate

OC PLC's operations are subject to income taxes in various foreign jurisdictions, the statutory income tax rates vary from 0.0% to 28.0%.

Reconciliation of the effective tax rate can be summarized as follows:

$ millions	30 June 2024	%	30 June 2023	%
Profit before income tax	100.3		170.9	
Tax calculated at weighted average group tax rate	(26.7)	26.6	(38.0)	22.2
Utilization of deferred tax asset	(17.2)	17.1	(2.1)	1.3
Other	14.3	(14.3)	2.1	(1.3)
Total income tax in profit or loss	(29.6)	29.5	(38.0)	22.2

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

10.3 Deferred income tax assets and liabilities

The majority of the deferred tax assets of USD 54.0 million (31 December 2023: USD 60.4 million) relates to carried forward tax losses. The deferred tax assets recognized in the statement of financial position is expected to be realized in the period 2024 - 2029.

Deferred tax assets have not been recognized in respect to the carried forward tax losses amounting to USD 765 million with a tax effect of USD 199 million. The deffered tax was not recognized since the Group assessed that it is not probable that future taxable profit will be available against which the Group can use the benefits therefrom. These tax losses will expire as follows:

$ millions	30 June 2024	Expiry date	31 December 2023	Expiry date
Expire	689.7	2034 - 2038	689.7	2034 - 2038
Never Expire	75.3	-	75.3	-

11. Inventories

$ millions	30 June 2024	31 December 2023
Finished goods	12.1	22.9
Raw materials and consumables	168.0	211.2
Fuels and others	4.9	6.1
Real estate	6.0	8.6
Total	191.0	248.8

As at 30 June 2024, the total write-downs amount to USD 2.3 million (31 December 2023: USD 3.4 million), of which USD 1.5 million related to raw materials and USD 0.8 million related to finished goods.

12. Contracts work in progress / billing in excess of construction contracts

$ millions	30 June 2024	31 December 2023
Costs incurred on contracts (including estimated earnings)	19,634.7	23,319.7
Less: billings to date (Net)	(19,508.0)	(22,927.3)
Total	126.7	392.4
Presented in the consolidated statement of financial position as follows:		
Construction contracts in progress - current assets	543.3	737.8
Less: Billing in excess on construction contracts - current liabilities	(416.6)	(345.4)
Total	126.7	392.4

Contract balances

Contract assets primarily relate to the Group's right to consideration for work completed but not yet billed at the reporting date. Contract liabilities relate to the billings in excess of revenue and the advances from customers. Advances from customers pertain to the advance consideration received from customers for the services for which revenue is recognised on performance obligation. The contract assets becomes trade receivables when the rights become unconditional.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The following table provides information about contract assets and contract liabilities from contracts with customers:

$ millions	30 June 2024	31 December 2023
Contract assets (contract work-in-progress)	543.3	737.8
Contract liabilities (billings in excess of revenue)	(416.6)	(345.4)
Contract liabilities (advances from customers)	(810.9)	(841.6)

13. Cash and cash equivalents

$ millions	30 June 2024	31 December 2023
Cash on hand	2.5	1.7
Bank balances	662.0	690.3
Restricted funds	1.4	2.0
Restricted cash	7.3	2.6
Total	673.2	696.6

Restricted funds

The restricted amounts mostly relate to letters of guarantees of Orascom Trading Company (USD 0.5 million) and United Holding Company (USD 0.4 million).

Restricted cash

Restricted cash totaling USD 7.3 million pertains to funds withheld as collateral against certain loans and trade finance obligations.

14. Share capital

The movements in the number of shares (nominal value USD 1 per share) can be summarized as follows:

	30 June 2024	31 December 2023
At 1 January	110,243,935	116,761,379
Share capital reduction	-	(6,517,444)
At 30 June / 31 December - fully paid	110,243,935	110,243,935
At 30 June / 31 December ($ millions)	110.2	110.2

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Warranties

The warranties are based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

Other (including claims)

The Group is involved in various litigations and project related disputes. In cases where it is probable that the outcome of the proceedings will be unfavorable, and the financial outcome can be measured reliably, a provision has been recognized. Reference is made to Note 27 for detailed information with respect to major ongoing litigations and claims.

21. Cost of sales and selling, general and administrative expenses

i. Expenses by nature

Other employee expenses	25.7	11.0	32.6	16.1
Total	302.3	147.5	228.2	116.6

As of 30 June 2024, the number of permanent and temporary staff employed by the Group is 21,688 (30 June 2023: 21,952) and 29,448 (30 June 2023: 34,175), respectively.

A Long-Term Incentive Plan ("LTIP") to attract, motivate and retain key employees in the organization by providing market competitive compensation packages has been put in place in June 2016. Under the plan target awards will be granted annually to executives and senior management and employees in critical positions or high performers. These awards will carry a 3-year vesting period. They will be focused on EBITDA, cash flow from operations and share performance. The plan is cash-settled; no transfer of equity instruments will take place under this plan.

Some of the Group's subsidiaries in the United States of America contribute to multi-employer defined benefit plans administered by unions that provide pension and post-retirement health and welfare benefits to employees, based on a defined dollar amount per hour. The Group has availed the exemption of IAS 19, para 34, to account for the contributions to these multiemployer defined benefit plans as defined contribution plans, as sufficient financial information is not publicly available with regards to these plans. The contribution to these plans for the 6 month period ended 30 June 2024 is USD 3.9 million and the expected contribution to these plans for the financial year 2024 is USD 7.2 million. The average contribution by Group's subsidiaries to multiemployer benefit plans is assessed to be less than 5% of the total contributions of the respective plans.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

22. Other income

$ millions	the six months ended 30 June 2024	the three months ended 30 June 2024	the six months ended 30 June 2023	the three months ended 30 June 2023

26. Segment reporting

The Group determines and presents operating segments on the information that internally is provided to the Chief Executive Officer during the period. The Group has three reportable segments, as described below. Each of the segments is managed separately because they require different operating strategies and use their own assets and employees. Factors used to identify The Group's reportable segments, are a combination of factors and whether operating segments have been aggregated and types of products and services from which each reportable segment derives its revenues.

Segment revenues have been presented based on the location of the entity which is managing the contracts.

BESIX is presented as part of 'equity accounted investees', therefore in the above schedule only the income from equity accounted investees and the asset value are reflected. For further information with respect to liabilities, revenues and cost, reference is made to note 9.

The geographic information above analyses the Group's revenue and non-current assets by the Company where the activities are being operated. The Orascom Construction Group has the following customers that represent 10 percent or more of revenues:

Percentage	30 June 2024	30 June 2023
Egyptian Government	28.7%	40.8%

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

27. Contingencies

27.1 Contingent liabilities

27.1.1 Letters of guarantee / letters of credit

Letters of guarantee issued by the banks for the Group as at 30 June 2024 amount to USD 1,732.4 million (31 December 2023: USD 1,873.4 million). Outstanding letters of credit as at 30 June 2024 (uncovered portion) amount to USD 39.5 million (31 December 2023: USD 93.6 million).

Some of our sub-holdings have provided general performance guarantees for the execution of major projects by our subsidiaries.

As of 30 June 2024, mechanic liens have been received in respect of one of our US project for a total of USD 1.9 million (31 December 2023: USD 5.0 million).

27.1.2 Litigations and claims

The Group entities and joint ventures, are engaged in various legal disputes, acting either as defendants or claimants. These cases are closely monitored by management and legal counsel, who evaluate them for potential impacts, taking into account possible insurance recoveries and third-party claims. Provisions for potential financial impacts from unfavorable outcomes are recognized in the consolidated financial statements in accordance with the requirements of IAS 37 "Provisions, Contingent Liabilities, and Contingent Assets", specifically under note 20 'Provisions,'. However, due to uncertainties such as potential new lawsuits, settlements, or court decisions, the Group cannot determine any additional financial loss with certainty. Despite this, based on legal consultations, the management believes these legal matters will not substantially affect the Group's financial position as of 30 June 2024, though they may significantly impact operational results or cash flows in specific periods.

Furthermore, the Group faces potential claims from customers and accordingly sets aside adequate provisions, with these reserves being periodically reviewed to account for any significant claims or litigation risks. Legal assessments suggest that these provisions are sufficient, and no significant additional cash outflows are anticipated beyond what has already been accounted for. In adherence to IAS 37 guidelines on "Provisions, Contingent Liabilities, and Contingent Assets," the Group has chosen not to disclose full details of these legal disputes. This decision is driven by the belief that such disclosures could compromise the Group's position in ongoing and contested legal matters, prioritizing the protection of their legal strategy while managing litigation risks within the framework of IAS 37.

27.1.3 Sidra Medical Center

The contract for the design and build of the Sidra Medical and Research Centre in Doha, Qatar, was awarded by Qatar Foundation for Education, Science & Community Development (the "Foundation") in February 2008 to Obrascón Huarte Lain (55%) and Contrack Cyprus Limited (45%), hereinafter referred to as the "JV", for a total contract value of approximately USD 2.4 billion.

In July 2014, when the project was approx. 95% complete, the JV received a Notice of Termination from the Foundation. On or around the same date, the Foundation successfully liquidated the JV's performance bank and advance payment guarantees, receiving a total of QAR 880 million. On 23 July 2014, the Foundation commenced arbitration proceedings against Obrascón Huarte Lain and Contrack Cyprus Limited by serving a Request for Arbitration with the ICC (seat in London). Since 2014, several hearings and expert meetings took place and partial awards have been issued by the tribunal. An award is expected by the end of 2024 or Q1 2025.

In August 2017, the Foundation again served a Request for Arbitration, this time in parallel proceedings against OCI SAE with the ICC (seat in London). The claims made by the Foundation in this new arbitration arise in connection with a Parent Company Guarantee (the "PCG") issued by OCI SAE on 7 February 2008. The Foundation alleged that the terms of the PCG protect it in respect of liabilities and obligations of Contrack (Cyprus) Limited on the Project. This arbitration is on hold since March 2020 pending decision in the main arbitration in the paragraph above. If claims are awarded against Contrack (Cyprus) Limited in that arbitration, the Tribunal will have to consider its implications on OCI SAE in this arbitration.

27.1.4 King Abdul-Aziz Airport Development project

Saudi Binladin Group ("SBG") entered into an EPC contract with the General Authority of Civil Aviation of the Kingdom of Saudi Arabia, for the King Abdul-Aziz Airport Development Project - Phase 1 (the "Project"). Orascom Saudi Limited ("OS"), a company which OCI Construction Limited (Cyprus) has a participation of 60%, entered into a series of five subcontracts (the "Subcontracts") with SBG to carry out works related to the project throughout 2011 to 2015. Under the Subcontractors, OS encountered several delays in the commencement, performance and completion of the works against the originally contemplated time schedule resulting in time and cost damages to OS.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

On 25 June 2019, OS commenced arbitration proceedings by filing a Request for Arbitration before the ICC Court of Arbitration (seat in Cairo) claiming its entitlement to extensions of time and additional costs. On 8 September 2019, SBG filed its Answer to the Request for Arbitration, counterclaiming that OS was overpaid and seeking recovery of the amount. On 19 September 2019, the Arbitral Tribunal was constituted. In August 2020, OS submitted its Statement of Claim, followed by SGB filing its Statement of Defence and Counterclaim in May 2021. During the months of May through to December 2021, the Parties were engaged in a document production phase, together with the exchange or written submissions on the claims and counterclaims.

The arbitration is currently suspended, while the parties attempt to reach a mutual agreement.

27.1.5 USA Claims

In addition to the cases identified above, the Group is involved in other disputes of a lower value, namely in the United States, either as defendants or claimants. Provisions are considered in the Group's accounts when deemed appropriate, in accordance with the IAS standards.

28. Related party transactions and balances

In addition to the related party transactions in the table above, the company incurs certain operating expenses for immaterial amounts in relation to services provided by related parties.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

28.1 Tax indemnity agreement

In 2013, as part of a settlement with the Egyptian Tax Authority (ETA) regarding the sale of its cement business to Lafarge SA in 2007, OCI S.A.E (OCI) agreed to pay EGP 7.1 billion over a five-year period. This settlement included an initial payment of EGP 2.5 billion by OCI.

In February 2014, the Egyptian Public Prosecutor exonerated OCI from the tax claim, a decision further supported by the ETA's Independent Appeals Committee in November 2014. Following these decisions, OCI requested the ETA to reimburse the first installment previously paid. However, the ETA appealed this decision.

In the midst of these legal proceedings, on 6 February 2015, OC PLC and OCI N.V. entered into a tax indemnity agreement related to the ongoing tax claim lodged by the ETA. This agreement outlined that any liabilities incurred from the tax claim, including associated costs, would be shared equally between the two parties.

Subsequently, the demerger from OCI N.V. was completed in March 2015, with OC PLC being listed on Nasdaq Dubai on 9 March and on the Egyptian Exchange on 11 March. This move established OC PLC and OCI N.V.

In the same month, OCI received EGP 1.9 billion from the Egyptian authorities, despite the ongoing dispute over the tax claim. In 2016, OCI made a second installment payment of EGP 900 million as part of the original agreement with the ETA.

In January 2023, a court judgment confirmed the decision by the ETA's Independent Appeals Committee in favor of OCI, rejecting the tax claim. This decision became irrevocable in May 2023, ensuring that the EGP 1.9 billion paid to OCI in 2015 could not be reclaimed by the ETA, and establishing OCI's claim for reimbursement of the EGP 900 million second installment.

Finally, in June 2023, an agreement was signed between the Group and OCI N.V., where the Company would receive a 50% share of the net reimbursed amount received by OCI, as well as a 50% share in the reimbursement claim against the ETA.

28.2 OCI Foundation and Sawiris Foundation

The OCI Foundation invests company resources in educational programs that improve the communities in which the company operates. OCI has cultivated strong ties with several leading universities, including the University of Chicago (Onsi Sawiris Scholars Exchange Program), Stanford (The American Middle Eastern Network Dialogue) and Yale (Master of Advanced Management program and Global Network for Advanced Management program).

Furthermore, the Sawiris Foundation for Social Development also provides grants to fund projects implemented by charitable organizations, educational institutions, local government and private business.

29. Remuneration of the Board of Directors (Key management personnel)

During the six month period ended 30 June 2024, we considered the members of the Board of Directors (Executive and Non-executive) and the senior management to be the key management personnel as defined in IAS 24 'Related parties'. The total remuneration of the key-management personnel amounts for the six month period ended 30 June 2024 to an amount of around USD 15.2 million (30 June 2023: USD 9.1 million).

Key management personnel compensation comprise of the following:

$ millions	30 June 2024	30 June 2023
Short-term employee benefits	2.7	5.8
Other long-term benefits	12.5	3.3
Total	15.2	9.1

Independent Auditors' Report on Review of Separate Interim Financial Statements

To the Shareholders of Orascom Construction PLC

Introduction

We have reviewed the accompanying 30 June 2024 separate interim financial statements of Orascom Construction PLC ("the Company"), which comprises:

- the separate statements of profit or loss and other comprehensive income for the three month and six month periods ended 30 June 2024;
- the separate statement of financial position as at 30 June 2024;
- the separate statement of cash flows for the six month period ended 30 June 2024;
- the separate statement of changes in equity for the six month period ended 30 June 2024; and
- notes to the separate interim financial statements.

Management is responsible for the preparation and presentation of these separate interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these separate interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2024 separate interim financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

1 Legal status and principal activities

Orascom Construction PLC ("the Company") is a Public Company, incorporated and registered in the Dubai International Financial Centre. The Company is dual listed on NASDAQ Dubai and the Egyptian Exchange. The registered address of the Company is P.O. Box 507031, Dubai International Financial Centre, Dubai, United Arab Emirates.

The Company was incorporated on 18 January 2015 as Orascom Construction Limited, a Company limited by shares and subsequently converted to a Public Company under the DIFC Law No. 5 of 2018.

The principal activity of the Company is holding investments.

The Company has 100 percent interest in Orascom Holding Cooperatief U.A. and Orascom Holding Limited which are the parent company of other subsidiaries operating in the construction sector.

2 Basis of preparation

Statement of compliance

These separate interim financial statements have been prepared in accordance with the International Accounting Standard ("IAS") 34, Interim Financial Reporting, and should be read in conjunction with the Company's last annual separate financial statements as at and for the year ended 31 December 2023. They do not include all of the information required for a complete set of financial statements prepared in accordance with IFRS Standards. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

Separate financial statements of the Company

The Company acts as a holding company for its subsidiaries. The Company and its subsidiaries are collectively referred to as "the Group". These separate interim financial statements present the financial performance and position of the Company only and do not include the operating results and financial position of its subsidiaries. In these separate financial statements, the investments in subsidiaries are stated at cost less provision for impairment losses (refer accounting policy on impairment) in accordance with International Accounting Standard 27 *Consolidated and Separate Financial Statements*. In order to have a more comprehensive understanding of the results of operations, financial position, changes in equity and cash flows, the consolidated interim financial statements of the Group for the six month period ended 30 June 2024 issued separately on 27 August 2024 should be referred to.

Basis of measurement

These separate interim financial statements have been prepared under the historical cost basis.

Functional and presentation currency

These separate interim financial statements are presented in US Dollars ("USD"), which is the Company's functional currency.

2 Basis of preparation *(continued)*

Use of estimates and judgments

The preparation of these separate interim financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

These estimates and associated assumptions are based on historic experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgement about the carrying value of assets and liabilities that are not readily apparent from the other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of assumptions, estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the separate interim financial statements are discussed in note 18.

3 Material accounting policies

The accounting policies set out below, which comply with IFRS standards, have been applied consistently to all periods presented in these separate financial statements in dealing with items which are considered material in relation to these separate interim financial statements.

Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

A trade receivable without a significant financing component is initially measured at the transaction price.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (“FVOCI”) – debt investment; FVOCI – equity investment; or fair value through profit or loss (“FVTPL”).

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

ii ***Classification and subsequent measurement*** *(continued)*

Financial assets *(continued)*

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

ii. Classification and subsequent measurement *(continued)*

Financial assets *(continued)*

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest *(continued)*

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains or losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortized cost

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment losses are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

iii Derecognition *(continued)*

Financial assets (continued)

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Impairment

i. Non-derivative financial assets

Financial instruments

The Company recognises loss allowances for ECLs on:

due from related parties; and
- cash at banks;

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for due from related parties and are always measured at an amount equal to lifetime ECLs.

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

Impairment *(continued)*

i. Non-derivative financial assets *(continued)*

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment that includes forward-looking information.

The Company considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the debtor will enter bankruptcy or other financial reorganisation

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

Impairment *(continued)*

i. Non-derivative financial assets *(continued)*

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

ii. Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3 Material accounting policies *(continued)*

Investment in subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Investment in subsidiaries is stated at cost less any provision for impairment, if any.

Share premium and treasury shares

Share premium is the excess amount received over the par value of the shares. Incremental costs directly attributable to the issue of new shares are recognised in equity as a deduction, net of tax, from the proceeds. When ordinary shares are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is classified as treasury shares on the statement of changes in equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in 'Treasury shares', and the resulting surplus or deficit on the transaction is presented in share premium.

Retained earnings

The amount included in retained earnings includes accumulated profits and reduced by dividends, and also include transfers of share premium. Dividends are recognised as a liability and deducted from equity when they are approved by the Company's shareholders. Dividends for the year that are approved after the reporting date are dealt with as an event after the reporting date. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Finance income

Finance income include interest income on loans due from related parties, interest from bank balances and net foreign exchange gain and gain on foreign currency exchange forward contracts. Interest income is recognised as it accrues, using the effective interest rate method.

Finance expense

Finance expense include interest incurred on loans due to related parties, bank charge and net foreign exchange loss. Interest expense is recognised as it accrues, using the effective interest rate method.

Cash on hand and at banks

Cash comprises bank balances and deposits with maturities of three months or less from the acquisition date (original maturity) that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments.

Provisions

A provision is recognised in the statement of financial position when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

3 Material accounting policies *(continued)*

Foreign currencies

Transactions in foreign currencies are translated into functional currency of the Company at the exchange rates at the dates of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss.

Short term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

New and amended standards issued and effective

The following revised new and amended standards have been adopted in the separate financial statements.

- Classification of liabilities as current and non-current – Amendments to IAS 1

The following revised new and amended standards are effective on 2024 but have not been adopted in the separate financial statements.

- Non current liabilities with covenants – Amendments to IAS 1
- Lease liability in a Sale and Leaseback – Amendment to IFRS 16
- Supplier Finance Arrangements – Amendments to IAS 7 and IFRS 7

Accounting Standards issued but not yet effective

A number of new accounting standards are effective for annual periods beginning after 1 January 2024 and earlier application is permitted. However, the Company has not early adopted the following new or amended accounting standards in preparing these separate financial statements. These new and amended accounting standards are not expected to have a significant impact on the separate financial statements.

- Lack of exchangeability – Amendments to IAS 21
- Sale or Contribution of Assets between an Investor and its associate or Joint Venture – Amendments to IFRS 10 and IAS 28

4 Financial risk management and capital management

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company's Board of Directors has the overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations which arise principally from the Company's amounts due from related parties, and cash at banks. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each of its related parties. The Company's cash is placed with banks of repute.

The Company establishes an allowance for impairment that represents its estimate of expected losses with respect to amounts due from related parties.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to accounts payable, accrued expenses, dividend payable, loans due to related parties and amounts due to related parties. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Market rate risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to the changes in foreign exchange rates. The principal currencies in which these transactions are primarily denominated in Egyptian pound and Euro.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the net finance income / expense of the Company. The Company has exposure to interest rate risk on loans due from and loans due to related parties on which interests are charged at agreed upon rates.

4 Financial risk management and capital management *(continued)*

Capital management

The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in the light of change in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to the shareholders or issue new shares.

Fair value

The fair value of the financial assets and liabilities of the Company approximate their carrying values as at the reporting date.

5 General and administrative expenses

	Six month period ended		**Three month period ended**

Interest rate risk

At the reporting date, the interest rate profile of the Company's interest-bearing financial instruments was:

Variable rate instruments

	30 June 2024 USD	31 December 2023 USD
Financial assets	**181,678**	2,812,011
Financial liabilities	**(192,478,680)**	(10,557,826)
	(192,297,002)	(7,745,815)

Cash flow sensitivity analysis for variable rate instruments

An increase of 100 basis points in interest rates at the reporting date would have increased/ (decreased) net profit by the amounts shown below. This analysis assumes that all other variables remain constant:

	30 June 2024	
	100 bp increase USD	**100 bp decrease USD**
Effect on profit or loss	**(1,922,970)**	**1,922,970**

15 Financial instruments *(continued)*

Interest rate risk *(continued)*

	31 December 2023 100 bp increase USD	100 bp Decrease USD
Effect on profit or loss	(77,459)	77,459
	=====	=====

Currency risk

The Company's exposure to foreign currency risk as at reporting date is as follows:

	30 June 2024	
	Euro	**Egyptian pound**
Cash at banks	**183,598**	**7,851,384**
Due to related parties	**(60,987)**	**-**
Loans due to related parties	**-**	**(685,887,009)**
	----------	---------------
	122,611	**(678,035,625)**
	======	=========

	31 December 2023	
	Euro	Egyptian pound
Cash at banks	80,977	7,108,635
Due from related parties	103,554	-
Loans due to related parties	-	(326,362,460)
	----------	---------------
	184,531	(319,253,825)
	======	=========

Sensitivity analysis

The following foreign exchange rates are applied by the Company during the period / year:

	30 June 2024		31 December 2023	
	Average rate	**Spot rate**	Average rate	Spot rate
1 Euro	**1.0826**	**1.0713**	1.0823	1.1039
1 Egyptian pound	**0.0259**	**0.0208**	0.0331	0.0324
	=====	=====	=====	=====

1% strengthening of the USD against the Egyptian Pound and / or Euro at 30 June 2024 / 31 December 2023 would have increased / (decreased) the net profit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant:

	30 June 2024 USD	31 December 2023 USD
Euro	**1,314**	2,037
Egyptian pound	**(141,167)**	(103,438)
	----------	----------
	(139,853)	(101,401)
	======	======

16 Operating segments

There were no operating segments identified by the management as at the reporting date.

17 Contingent liabilities and capital commitments

Contingent liabilities

18 Significant accounting estimates and judgements

The Company makes estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Impairment of investment in subsidiaries

The Company determines whether investment in subsidiaries is impaired on an annual basis or whenever there is any indication of impairment. This requires estimation of the "value in use" of the cash generating units. Estimating a value in use amount requires management to make an estimate of the expected future cash flows from the cash generating unit and also to choose a suitable discount rate in order to calculate the present value of these cash flows.

Impairment losses on financial assets

The Company's credit risk is primarily attributable to its loan receivable from related parties and due from related parties. In determining impairment losses, the Company recognises loss allowance for expected credit losses on the financial asset that is measured at amortized cost or FVOCI, trade receivables and a contract asset.

At each reporting date, the Company assess whether the credit risk on a financial instrument has increased significantly since the initial recognition. When making the assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses.

The Company may assume that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

If reasonable and supportable forward-looking information is available without undue cost or effort, the Company cannot rely solely on past due information when determining whether credit risk has increased significantly since initial recognition.

18 Significant accounting estimates and judgements *(continued)*

However, when information that is more forward-looking than past due status (either on an individual or a collective basis) is not available without undue cost or effort, the Company may use past due information to determine whether there have been significant increases in credit risk since initial recognition.

Regardless of the way in which the Company assesses significant increases in credit risk, there is a rebuttable presumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due. The Company can rebut this presumption if it has reasonable and supportable information that is available without undue cost or effort, that demonstrates that the credit risk has not increased significantly since initial recognition even though the contractual payments are more than 30 days past due. When the Company determines that there have been significant increases in credit risk before contractual payments are more than 30 days past due, the rebuttable presumption does not apply.
