- Revenue of USD 4,782.2 million, EBITDA of USD 333.1 million, and net profit attributable to shareholders of USD 218.0 million in 9M 2026
- Consolidated backlog of USD 11.6 billion and pro forma backlog including 50% share in BESIX of USD 15.0 billion as of 30 September 2026
- Consolidated new awards of USD 7.1 billion and pro forma new awards including 50% share in BESIX of USD 8.3 billion in 9M 2026
- U.S. backlog more than doubled y-o-y to USD 4.8 billion, or 41.7% of consolidated backlog, with data centers leading new awards in Q3 2026
- New milestones across the concessions platform, including financial close and full-scale construction on the 900 MW Build-Own Operate wind farm in Egypt, which will double the Group's wind power capacity to 1.8 GW

STATEMENT FROM THE CEO

Our third quarter results reflect the consistent execution of our long-term strategy and our ability to identify and capitalize on growth markets. Our success in data centers in the U.S. and in power and water in the Middle East demonstrates our team's capabilities across evolving markets. That said, we continue to operate in an uncertain geopolitical environment, where operational excellence and vigilance are essential. We are working closely with our clients to mitigate potential impact on project delivery.

We delivered robust financial performance, backlog growth, and tangible progress across our infrastructure investments while maintaining our focus on disciplined project execution and proactive risk management.

In Q3 2026, revenue grew 22.5% y-o-y to USD 1,804.2 million, EBITDA increased 56.1% to USD 132.1 million, and net profit more than doubled to USD 102.7 million. In 9M 2026, revenue, EBITDA, and net profit increased 39.5%, 64.9%, and 95.9%, respectively, with higher profitability across our MEA and U.S. operations lifting the Group's EBITDA margin to 7.0% from 5.9% a year earlier. We also generated healthy operating cash flow this quarter and are focused on reducing our short-term debt in Egypt.

Our construction backlog reached another record of USD 11.6 billion at the end of September, up from USD 10.9 billion at the end of June and 34.3% higher y-o-y. New awards increased 90.4% y-o-y to USD 7.1 billion in 9M 2026, including USD 2.3 billion in Q3 2026. These awards demonstrate our positioning across critical infrastructure, including power and water in MEA and data centers in the U.S., as well as our continued geographic expansion.

Our U.S. business continues to be a key driver of growth, with revenue, EBITDA, and net profit all reaching record levels in both Q3 and 9M 2026 as we benefit from our increased focus on specialized sectors, led by data centers. Backlog also grew 112.8% y-o-y to USD 4.8 billion, or 41.7% of the Group's total. In data centers, we continue to expand our scope across several hyperscale projects and are positioned to further build on our construction portfolio of over 2 GW.

We achieved important milestones in expanding our concessions platform, including financial close and progress on full-scale construction of the new 900 MW Build-Own-Operate wind farm in Ras Shokeir, Egypt. This project will double our wind power capacity as a developer to 1.8 GW, with full commercial operation expected in summer 2028. We are also commissioning components of Project Wave, the 30-year seawater treatment and supply project in Abu Dhabi. Alongside our operational concessions, these projects will grow our recurring income base over the long term and provide a foundation for further infrastructure investment.

We are also on track to complete the combination with OCI N.V. in December, which will complement our existing strengths and enhance our ability to develop and invest in infrastructure at greater scale.

Consolidated backlog (excluding BESIX) increased 34.3% y-o-y to USD 11,613.5 million as of 30 September 2026. Consolidated new awards increased 615.9% y-o-y to USD 2,252.5 million in Q3 2026 and 90.4% y-o-y to USD 7,082.3 million in 9M 2026.

The share of backlog from the U.S. and regional MEA markets grew from 42.8% a year ago to 61.2% as of 30 September 2026.

Including the Group's 50% share in BESIX, pro forma backlog increased 16.7% y-o-y to USD 15,019.7 million as of 30 September 2026. Pro forma new awards increased 270.7% y-o-y to USD 2,598.1 million in Q3 2026 and 70.1% y-o-y to USD 8,349.7 million in 9M 2026.

MEA

Backlog in MEA increased 6.3% y-o-y and marginally decreased 2.0% q-o-q to USD 6,772.8 million as of 30 September 2026. The Group signed new awards of USD 621.4 million in Q3 2026, bringing total new awards in 9M 2026 to USD 2,688.6 million.

New awards during Q3 2026 were led by projects across the water, power, and infrastructure sectors in the region. Orascom Construction secured a new seawater desalination project in the UAE, additional power work in Saudi Arabia, and infrastructure projects in Egypt.

The Group achieved several operational milestones during the quarter. At Greater Cairo Metro Line 4, the first Tunnel Boring Machine (TBM) broke through on the 5.4 km twin-tunnel section, and the second started excavation. The Group also commenced construction at three new wind farms in Egypt, is commissioning key components of Project Wave in Abu Dhabi, and is progressing on a 3 GW gas-fired combined-cycle power plant in Saudi Arabia.

USA

Backlog in the U.S. increased 112.8% y-o-y and 21.9% q-o-q to a record USD 4,840.7 million as of 30 September 2026. The Group signed new awards of USD 1,631.1 million in Q3 2026, bringing total new awards in 9M 2026 to USD 4,393.7 million.

New awards during Q3 2026 were led by the data center sector, with additional work in the industrial, commercial, and aviation sectors. The Group continues to expand its scope across hyperscale projects and increase self-performance of specialized work at its data center sites, with a construction portfolio exceeding 2 GW across multiple hyperscalers and developers.

In addition, construction is advancing across key areas of the new terminal at Des Moines International Airport, with major systems, including the baggage handling system and central utility plant, undergoing testing and commissioning. Earthworks and foundations are well underway alongside tower crane erection and elevator core works at the Four Seasons Telluride Resort & Residences in Mountain Village, Colorado.

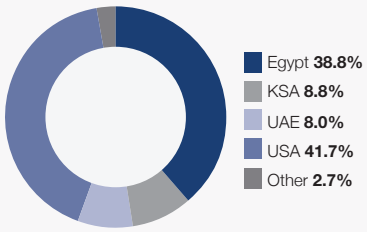

BESIX Group

BESIX's standalone backlog decreased 16.6% y-o-y from near-record levels to EUR 6.0 billion as of 30 September 2026. New awards in Q3 2026, led by airport work in Europe, totaled EUR 608.6 million, bringing total new awards for 9M 2026 to EUR 2.22 billion, up 8% y-o-y.

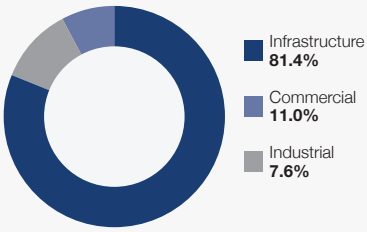

BESIX also achieved several recent operational milestones, including the installation of a 340-ton lock gate as part of the renovation and modernization of the Krammer Locks in the Netherlands, the completion of the façade of Tour Triangle in Paris, and the installation of turf at Aramco Stadium in Saudi Arabia.

CONCESSIONS

The Group achieved financial close and advanced full-scale construction of the new 900 MW Build-Own Operate (BOO) wind farm near Ras Shokeir in the Gulf of Suez, Egypt, with full commercial operation expected in summer 2028. This 25-year project will double the Group's wind power capacity as a developer to 1.8 GW.

Commissioning of key components at Project Wave, the large-scale 30-year seawater treatment and water supply Build-Own-Operate-Transfer (BOOT) project in Abu Dhabi, is underway. Once complete, this project will play a major role in the sustainable development of the oil and gas industry of the UAE.

The Group received total distribution of USD 6.1 million from its operational concessions in 9M 2026.

BUILDING MATERIALS, EQUIPMENT SERVICES AND FACILITY MANAGEMENT

Performance across this segment was driven by the steel fabrication, equipment services, and facility management businesses.

National Steel Fabrication is already exporting most of its production and is supplying industrial projects in Europe, the Middle East and Africa, while Contrack FM secured multi-year contracts for the operation and maintenance (O&M) of a number of water desalination projects in Egypt.

Net profit from this segment stood at USD 15.3 million in 9M 2026, representing 7.0% of total net profit.
